

# ON24 Virtual Training Center

## Virtual Training and Professional Development

### Key Benefits

- Engage and educate your audience with a custom 3-D virtual training center
- Automate and deliver a training and certification program using the ON24 Continuing Education webcasting features
- Use rich media webcasts to deliver interactive training
- Easily publish and maintain curriculum using powerful content management tools
- Measure the performance and usage of your training programs with detailed reporting and tracking features

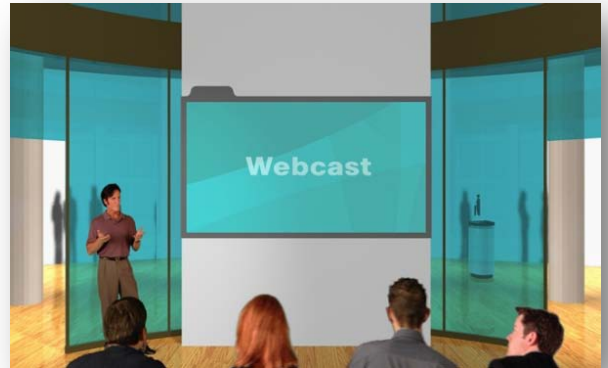

To avoid the cost and inconvenience of travel, organizations and independent professionals are turning to providing training and education programs virtually. ON24's rich media environments offer the perfect solution, delivering high-impact audio/visual training materials for an engaging learning experience.

The ON24 Virtual Training Center is designed for enterprises seeking an effective, flexible and compelling training solution. The ON24 Virtual Training Center aggregates your rich media assets, webcast library and training curriculum, integrating them with powerful registration and reporting tools to capture and track student performance. The interactivity makes it easy to connect with presenters and track attendee performance.

## Virtual Training Center Components

### Virtual Classroom

Build a library of training webcasts and publish them into the Virtual Classroom. From here, students can access and attend live and on-demand training from the convenience of their desktops. Virtual training events include audio or video streams, presentation slides, live Q&A and other available resources to engage your students and optimize the learning experience.

### Course Materials

Your ON24 Virtual Training Center also serves as a one-stop resource center for organizing all of your training curricula and related materials. Organize materials and courses by category and guide your users to the right training programs to best meet their needs.

### Communication Center

Engage with instructors and other students through integrated, easy-to-use networking tools. Schedule live chat sessions with instructors, interact with other students and ask questions using instant chat or email.

### Engaging 3-D Templates

ON24 leads the industry in 3-D virtual event design. Choose from our collection of templates or, for an extra charge, engage with our 3-D design team for a truly personal experience.

### Automated Certification and Testing

You may include interactive, self-paced tests before, during or after the event. Additionally, short tests or polls at regular intervals might be included to enforce attendance requirements. Tracking student progress is easy with automated assessment and certificate generation and real-time reporting tools.
