Client acknowledges the inherent limitations of AI technology, and because Outputs are based on Inputs, Outputs may (i) contain copyrighted, proprietary, infringing, confidential, or otherwise restricted materials, or (ii) appear accurate but are incorrect. 8. The use of an AI Service is voluntary, and Client may discontinue the use of an AI Service at any time. Client may also request that ON24 disable such features on Client's behalf. However, discontinuing the use of an AI Service does not relieve Client of the obligation to pay for an AI Service as purchased.
9. To the extent that third-party AI Technology providers indemnify ON24 for Outputs, and subject to the Universal Terms and ON24's indemnification obligations therein, ON24 shall defend Client against Claims made or brought against Client by a third party alleging that the Outputs misappropriate a trade secret or directly infringe a patent, copyright, trademark, or other proprietary right of a third party and ON24 shall pay any damages and costs (including reasonable attorney's fees and legal costs) finally awarded by a court against Client or agreed to by ON24 in a settlement as a result of a Claim.
